SINCE 1982

ROTOR BLADES INFORMATION

KWALITEIT

- hoge starheid en een laag gewicht
- goede glij-eigenschappen
- olie-, vet- en waterbestendig
- anti-elektrostatisch
- zeer nauwkeurige afmetingen
- hoge slijtvastheid
- temperatuurbestendigheid: max. 120 °C

ASSORTIMENT

elke gewenste afmeting wordt door ons gefabriceerd

MOGELIJKHEDEN

onze pomp-schoepen zijn geschikt voor industriële doeleinden, voor vakuumpompen in de landbouw en melkmachines

QUALITÄT

- hohe festigkeit und geringes gewicht
- ausgezeichnete gleiteigenschaften
- öl, fett und wasser beständig
- anti-elektrostatisch
- genaue masse
- hohe schleissfestigkeit
- hitzebeständig bis 120 grad c.

ASSORTIMENT

in jeder gewünschten größe lieferbar

ANWENDUNG

unsere lamellen sind geeignet für industrielle zwecke, für vakuuum und druckpumpen in der landwirtschaft und für milchpumpen

QUALITÉ

- rigidité excellente, faible poids
- parfait glissement des palettes sur le stator
- résistant aux graisses et aux huiles
- anti-electrostatique
- cotes d'exécution précises
- très bas coefficient d'usure
- longue durée
- résistance de temperature: 120 °C

GAMME

toutes dimensions souhaitées réalisables

APPLICATIONS

nos palettes sont employées dans l'industrie et équipement des pompes centrifuge agricoles (machine à traire, lisier, etc.)

QUALITY

- high rigidity at a low weight
- good sliding characteristics
- oil and grease resistant
- anti-electrostatic
- accurate demensions
- long lasting
- temperature resistance 120 °C

ASSORTMENT

special dimensions on request

APPLICATIONS

our rotor blades are used for agricultural and milk pumps and also for industrial purposes

Order-no	Dimensions mm	Order-no	Dimensions mm	Order-no	Dimensions mm	Order-no	Dimensions mm
